I. READING COMPREHENSION

8 marks

Read the text then answer the questions.

- ① Ted Bell, 19, was passionate about cooking. He dreamed of becoming a chef and having a restaurant. But when he went to join cooking classes, they were full.
- ② Ted decided to try carpentry instead. He participated in a summer programme and loved the class and the hands-on projects. "It became my favourite because I built amazing things with my own hands," he said. "It's funny; I'm not good at math, but when I'm in woodwork, math comes naturally."
- ③ Ted became a brilliant student. His teacher asked him to help his classmates when he was busy. He learnt about different tools and spent much time in woodwork. He knew how to work all the machines and could fix them. "I found out I had a talent for building things," he said. "When I saw the benefits and pay that come with a career in construction, I knew this is what I want."

3 +

4 +

3. Circle the right option.

(0.5 X 5 = 2.5 marks)

I got my first job when I was 34 after so many interviews. Being a female car (**receptionist / mechanic / blacksmith**) is not an easy thing. I last worked (**for / at / from**) someone in a workshop in 2014. Ever since then, I help friends and family at home and do my own stuff. I worked in several car (**companies / schools / parks**) and with each job I did, I (**gained / will gain / gains**) very useful knowledge. That job made (**it / me / them**) a much stronger person today.
